

GOVERNMENT OF YUKON PURCHASING WEB SITE ADDRESSES

Government of Yukon Supplier Directory: <http://www.gov.yk.ca/supplierdirectory/index.html>

The Supplier Directory is a directory of contractors, suppliers of goods & services and consultants who want to do business with the Yukon government. Government employees use the Supplier Directory to identify contractors when invitational or sole-sourced tenders are issued. This is an **OPEN** Supplier Directory and can also be accessed by the public and non-governmental purchasers to source the suppliers they need in Dawson City.

This replaces the previous Source List. Business names and details were **NOT** transferred from the previous list so they must register again. Many Dawson businesses are not listed.

Government of Yukon Contract Registry: <http://www.hpw.gov.yk.ca/registry>

This provides information on all contracts awarded by Yukon government departments and agencies. Use the on-line registry to search current and historical contracts using search criteria, learn about previous bid prices, goods and services used and project manager contacts.

Government of Yukon Public Tenders: <http://www.gov.yk.ca/tenders>

Included on this site is information about currently advertised public tenders as well as recently awarded public tenders and who the successful contractor was. The Tender Management System allows businesses to sign up for automatic email notification of tenders, to download tender packages, view the other package holders and all submitted bid prices. Viewing other interested parties is useful to identify sub-contracting and partnership opportunities.

Government of Yukon Tendering Forecast: <http://www.gov.yk.ca/tenderforecast>

The Tendering Forecast contains projects in excess of \$25,000 that are anticipated will be tendered over the coming months.

Contract Regulations / Contract Directive: <http://www.hpw.gov.yk.ca/selling/policy.html>

This includes all the policies and guidelines covering Yukon government purchasing including the sole-source and public tender thresholds. Note that if you become aware of an invitational tender, project managers must provide you with the tender package and the opportunity to bid.

To access other Highways and Public Works information on the intranet go to the Government website at <http://www.gov.yk.ca> then Departments then Highways and Public Works.

For additional information you can call Contract Services at (867) 667-5385.
